

IR Remote Extender Kit (500600) Frequently Asked Questions (FAQ)

1. **Will the 500600 work with both plasma and LCD TV's?** Yes. The 500600 has been tested in the lab and it works fine with the lab's Panasonic plasma TV and LCD TVs (Samsung 3D, JVC SDI). In the field, it is possible that a TV with alot of EMI/RFI or in bright sunlight could alter the signal but in that case, as stated in the manual, the customer should move it away from sources of EMI/RFI.
