

### Overview

Designed for small commercial and residential applications, the Rackmount Transceiver Chassis allows several MuxLab desktop transceivers to be mounted in a 1U 19" relay rack for custom audio-video applications where the source equipment is installed in a central wiring room.

### Applications

- Custom AV installations
- Head-end audio-video systems
- Home and commercial AV systems
- Boardroom systems
- Surveillance systems
- Digital signage systems

### Key Features

- Space efficient - 1U height
- One-piece design
- Latching mechanism for secure installation
- Supports up to three (3) transceivers
- Snap-in design for ease of installation
- Includes four (4) rackmount screws and washers
- Slot number silkscreen on front and rear
