

MuxLab HDMI Econo Plus Wall Plate Extender Streamlines HD Cabling

Supports 1080p up to 150 ft via Cat5e Cable

Montreal, Canada — MuxLab Inc (www.muxlab.com), designer and manufacturer of security video and audio-video connectivity solutions for copper twisted pair, announces its latest addition to its AV connectivity portfolio.....**The HDMI Econo Plus Wall Plate Extender Kit (500401-WP-US/UK).**

Developed for the custom residential and commercial AV market, the HDMI Econo Plus Wall Plate Extender Kit provides allows one HDMI cable to be replaced by two (2) Cat5e/6 twisted pair cables. The 500401 supports 1080p up to 150 ft (45m) via Cat5e cable. Furthermore, the product supports 1080p Deep Color up to 90 ft (27m) via Cat6 cable. The product also has a “No Power” mode allowing it to be used without external power in applications where AC power is not accessible.

The HDMI Econo Plus Wall Plate Extender Kit includes one Transmitter, one Receiver and one (1) power supply and comes with a two (2) year warranty. The product complies with HDMI 1.3a and FCC Class A standards. The HDMI Econo Plus Wall Plate Extender Kit streamlines cabling in applications such as: home theatre, digital signage, boardroom projector systems and classroom training systems. The product allows pre-existing twisted pair to be used instead of costly single-use HDMI cable, thereby allowing HDMI equipment to access the structured cabling system for greater maximum investment return.

The product comes in two variants; 500401-WP-US and 500401-WP-UK. The US versions are Decora™ compatible. UK versions fit standard UK 86x86mm back boxes with minimum depth of 40mm. Both extenders are enclosed in rugged, dust-proofed modules made from ABS fire retardant plastic, are terminated with RJ45S connectors and support the EIA568 wiring standard.
