

## Muxmeet Videobar Bracket

500914

### Overview

The Muxmeet Videobar Bracket (model: 500914) provides a clean, reliable, and drill-free solution for integrating enterprise videobars directly with commercial displays or interactive flat panels. Engineered to attach directly to the existing VESA mounting pattern on the rear of the television, this heavy-duty steel bracket secures your video conferencing hardware above or below the screen without damaging walls or requiring additional stud alignment. Its universal slot design ensures broad compatibility across standard VESA patterns, making it ideal for corporate meeting rooms, huddle spaces, and higher-education classrooms.

### Applications

- Commercial and residential AV systems
- Classroom projector systems
- Digital signage
- Boardroom systems
- Collaborative PC systems

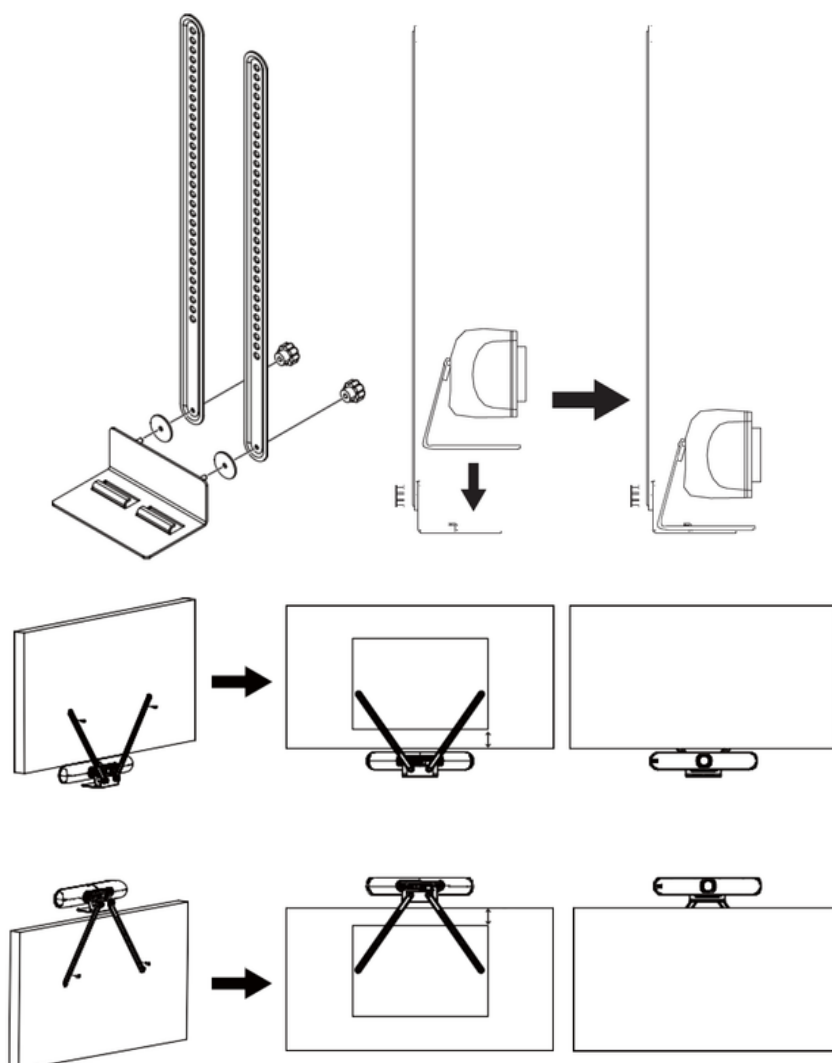

### Key Features

- Compatible with the 500820 and 500822
- Universal VESA Compatibility
- Flexible Dual-Position Mounting
- Drill-Free Attachment
- Heavy-Duty Construction

## Specification

|                      |                                                                 |
